

NOGA ROTO-DRIVE deburrer NG3400 Ø3-20 mm countersink

61130245

NOGA NG3400 Heavy duty rotodrive

Patented deburring tool, which makes it possible to work fast in heavy materials. The rotodrive holder M7, has a 40 mm displacement which allows heavy duty burrs to be removed. Continuous rotation of countersink enables very fast chamfering. The C20 countersink blade is made of H.S.S and has a range of 3-20 mm. The handle is made of plastic, with a rubber coating and designed for maximum comfort in your hand. Spare blades can be held inside the handle.

- Rotodrive with 40 mm displacement – for heavy duty burrs
- NG3000 handle, holds all blade holders
- Spare blades can be held inside the handle
- Supplied with countersink head 3-20 mm

Including C20 countersink (BC2011), Rotodrive holder (EL0802), NG3000 handle (NG3000).
