

NOGA ext. Roto-Drive deburrer NG3500 ext. Ø8-28 mm

61130250

NOGA NG3500 Rotodrive – Chamfers the O.D on bars and tubes

The NOGA NG1700 deburring tool makes it easier than ever to chamfer the O.D. on bars and tubes. The tool is designed with a clever single flute countersink. The countersink head is rotatably mounted in the handle which provides a smoother and quicker cut. The countersink is made in H.S.S. and has a range on 8-28 mm.

The rotodrive holder, has a 40 mm displacement which allows heavy duty burrs to be removed. Continuous rotation of countersink enables very fast chamfering. The EX28 countersink blade is made of H.S.S and has a range of 3-20 mm. The handle is made of plastic, with a rubber coating and designed for maximum comfort in your hand. Spare blades can be held inside the handle.

- Rotodrive RD – for quick and smooth chamfering
-
- NG3000 handle, holds all blade holders
-
- Spare blades can be held inside the handle.
-
