

ARCMaster RG-3600 Radius Gauge Set for internal and external measuring 150-3600 mm

10356760

The set contains:

1 x 10356730, ARCMaster IRG-3600 Radius Gauge for internal measurement 150-3600 mm

1 x 10356745, ARCMaster ORG-3600 Radius Gauge for external measuring 150-3600 mm

This gauge will take outside radius measurements of cylindrical objects, the curvature of body panels, railing, etc., anything that is not accessible from the inside. These dependable, all-weather gauges are usable in any environment.

The measuring tolerance is +/- 0,5% for all measurements. In most cases this is only suitable as a reference measurement. All gauges are tested and adjusted to a tolerance of better than +/- 0,5% on all measurements.

10356730: The minimum chord (distance between outer contact points) needed for the radius gauge to take a measurement is 13" (330 mm).

10356745: The minimum chord (distance between outer contact points) needed for the radius gauge to take a measurement is 14" (356 mm).
